Dear Wisconsin Legislative Leader,

FreeWisconsin is a group of concerned citizens. We request to meet with you to discuss a law to protect citizens of Wisconsin from forced, compelled, coerced, or mandated Digital id and programmable money and insure cash, gold, and silver are legal tender. Some states are forcing people into ReallID without the ability to opt-out. ReallID moves us into a digital id system and violates our constitutional rights as citizens of the United States. We need you, our Wisconsin Legislators, to protect us. When can we meet in person or by phone or zoom. **This is crucially important and time is of the essence.** This must go to a vote in January/February 2026. *Federal laws are passing rapidly. We need laws to protect Wisconsin now to include:*

- 1. Author a law that bans forced, compelled, or coerced participation** in the Digital ID roll-out and Programmable money.
- 2. Include provisions that overrule the federal failure to comply with the U.S. Constitution** and make it clear that no new rules, laws, or mandates will be created until all new rules, laws, and mandates comply with the state and U.S. Constitution.
- 3. Block new rules and laws forcing, compelling, or coercing participation in Digital ID and Programmable Money** and stop the federal government forcing our state to adopt any related regulatory actions, rules, laws, or mandates.
- 4. Oppose any and all bills that** violate the state and U.S. Constitution, to include any and all court orders.
- 5. Defend state law-making authorities (Representatives and Senators)** and rule-enacting authorities (Sheriffs) in their sworn duty to prevent federal overreach in our state and protect our citizenry from any federal overreach or breach of either state or U.S. Constitution.
- 6. Block new rules and laws that give any and all corporations or local businesses** power or ability to force, compel, coerce, or mandate participation in Digital ID & Programmable Money
- 7. Block new rules and laws that give any and all corporations or local businesses** power to force, compel, or coerce our state to adopt any related regulatory action, rule, law, or mandate.

In the next few days, someone from FreeWisconsin will be following up with your office to confirm a date and time to meet with FreeWisconsin before Christmas.

Thank you very much. I wish you and your family a happy, healthy holiday season!
