

Constituent Call or Text to schedule a meeting

Call to Senator or Assembly person's office:

Hello (Senator or Representative or Aide) _____. My name is _____ and I am your constituent. I'm calling to ask you to meet with a group of concerned Wisconsin citizens working on legislation to protect us from forced DigitalID and programmable money and insure cash, gold, and silver as legal tender. Some states are already forcing people into RealID, which moves us into the digital id system. As your constituent, this concerns me greatly not just for myself, but my children and grandchildren. This affects us all. I request you meet with this group either in person, by phone, or zoom. This issue is crucial and time is of the essence. We need this bill to go to a vote in January/February 2026.

OR:

Text to Senator or Assembly person:

My friend is working with a group of concerned Wisconsin citizens to create legislation to protect us from forced, coerced, compelled, or mandated digital id and programmable money, and to insure that we can still use cash, gold, and silver as legal tender. All three are at risk. Some states are already forcing people into RealID, which move sus into the digital id system. My friend wants to meet with you. As a constituent, I'm asking you to meet with her. What time works for you? This is crucially and time is of the essence. We need this bill to go to a vote in January/February 2026.

Thank you!
