

WE MUST STAND UP FOR LIBERTY NOW!

The USA is not great because of our government. Rather, the USA is great because our Constitution LIMITS the power of our government. This is vital because people in power always want more power!

Our political representatives are our servants, not our masters. They vow to defend our Constitution and defend our natural, inherent rights to life, liberty and the pursuit of happiness.

The US Constitution is the supreme law of the land. It creates a DECENTRALIZED POWER structure. The federal government has very specific and limited powers. Any powers that are not specifically granted to the federal government are reserved for the states and to the people themselves.

Many of the problems that we are experiencing right now is because we have allowed the federal government to assume powers that they do not legally have. We must take these powers back.

In many ways, states and local communities have more legal authority than the federal government. They have the authority and THE DUTY to block the federal government's encroachment on our liberties, including the DIGITAL ID and the coming digital control grid.

You must decide! Are you going to let them put their digital control grid in place, which will enslave us and future generations, or will we stand up and secure a life of liberty for ourselves and our children.

Digital ID is the most important issue of our lifetime. It will determine whether your children and grandchildren know liberty or whether they will be slaves to tyrants. NOW is the time to act!

Do not comply with any mandate that restricts your constitutional rights.

Reject the Real ID.

Copy this flier and give it to others.

Contact your Nebraska State Senators and the Governor and tell them to protect our liberty by defeating any and all Digital ID requirements.

Tell banks not to implement any type of Digital ID requirements.

Join us for a meeting on how we can stand up for liberty NOW!
